# THE MISSOURI MINER

Missouri School of  Mines & Metallurgy

VOLUME 42

ROLLA, MO., FRIDAY, OCTOBER 21, 1955

NO. 5

## We're Engineers -- Not Football Players

Any Miner who ever repeated the oft said words above is truly speaking of himself. He couldn't be a football fan, much less a player. The next time that phrase is repeated the entire football team, Coach Bullman included, should push those words down the throat of the skeptic speaking.

What does the team have to do to win the complete support and enthusiasm of the students? Win every game by 100 points? NO! The team shouldn't have to do anything spectacular to gain the support of the students. No matter what the record or ability of the team the student body should be 100% behind them, trying to encourage and improve their playing.

This year MSM has an outstanding team, potential conference champions, and still the support of the students is missing. A small percentage, those who appreciate the sacrifice of the players and the fine job they are doing, take pride in showing their support of the team. However the majority of the students are too lazy and indifferent to even go to the games.

Last Saturday's game should have been as great a disaster to the students as to each member of the team who played his heart out, only to lose. It was not! The general procedure was to shrug the defeat off with senseless words: "We're Engineers -- not football players."

The fact that they are Engineers and football players as well should be emphasized. That they have the guts and perseverance to take the difficult courses required at MSM and still play football should be considered. That they receive no scholarships, extra money or special privileges proves they are playing only for the name of the school -- for each and every student at MSM. How can the majority of the students continue to be indifferent?

The spirit which should exist is exemplified by our cheerleaders. These students are not forced to attempt to convert the students. They feel it is a duty to see that the team receives some encouragement. The students can best show their support by attending the games and cooperating with the cheerleaders. Not by holding riotous torchlight parades attended by a small group of students forced to attend, which has been falsely referred to as a pep rally.

Despite the Miners' loss to Cape they have an excellent chance of tying for or winning the conference championship. It is very possible that Cape will lose in future conference games. The team has shown that they won't quit when the odds are against them. The rest is up to the students.

## APPLICATIONS ARE NOW READY FOR COLLEGE QUALIFICATION TESTS

Applications for the November 17, 1955 administration of the College Qualification Test are now available at Selective Service System local boards throughout the country. Eligible students who intend to take this test should apply at once to the nearest Selective Service local board for an application and a bulletin of information.

Following instructions in the bulletin, the student should fill out his application and mail it immediately in the envelope provided to Selective Service Testing Section, Science Research Associates, 57 West Grand Avenue, Chicago 10, Illinois. Applications for the November 17th test must be postmarked no later than midnight, Tuesday, November 1, 1955.

According to Science Research Associates, which prepares and administers the College Qualification Test for the Selective Service System, it will be greatly to the student's advantage to file his application at once. The results will be reported to the student's Selective Service local board of jurisdiction for use in considering his deferment as a student.

## Wesley Foundation Forms Committees For Coming Year

by Joe Robinson

The Wesley Foundation of the local Methodist Church met Sunday evening in the Methodist Fellowship House.

Following the evening meal, prepared by Mrs. H. T. Mann, the group had a period of singing, led by the music director, Richard Herndon.

The business meeting was called to order by the president, Harry Wainwright, Jr. The possibility of arranging a special singing group was discussed, and special committees were named. Also a new kitchen committee was named. The kitchen committees are on a voluntary basis.

Robert Fuller was in charge of the program. The usual trouble of starting a discussion was not encountered as everyone seemed to have different opinions on each subject.

The meeting was adjourned following a short worship service.

### NOTICE

All articles for publication in the MINER should be typewritten. Your cooperation will be appreciated.

## MSM Ranks High In Technical Schools

The Missouri School of Mines and Metallurgy ranked 11th in the number of its graduates appearing in the recent edition of the directory "Who's Who in Engineering" compared with the other engineering schools of the United States and Canada, according to an article appearing in the October issue of the magazine "Mechanical Engineering" entitled "The Study of College Graduates in the 1954 Edition of 'Who's Who in Engineering'".

The study was made by the Assistant to the Dean of the University of Kansas, School of Engineering and Architecture, at Lawrence, Kansas.

State ranking ahead of the Missouri Institution included the Massachusetts Institute of Technology, which was first with 930 of its graduates listed in "Who's Who in Engineering".

The University of Michigan was second, followed by the Cornell University, Purdue University of Illinois, University of Wisconsin, University of California, Ohio State University, University of Kansas, University of Minnesota and then the Missouri School of Mines and Metallurgy. The Missouri School of Mines and Metallurgy had 283 of its graduates listed in this directory.

## PARKER HALL PACKED FOR MUSIC OF JOHNNY LONG AND ORCHESTRA

Last Tuesday night Johnny Long and his orchestra presented a two hour concert in Parker Hall as the first of a series of General Lecture programs. A standing room only crowd showed their approval of the versatile violinist by loud and prolonged ovations throughout the concert.

The varied program including two fine vocalists and every conceivable type of music showing that Long has one of the "Best Outfits" in the country. He played straight dance music, Latin rhythm, Rock and roll, Jazz, and Dixieland equally well. Other items which helped to vary the program were the glee club routine, his use of clarinets in megaphones, and of course Long's violin, which he spotlighted for the dream treatment.

The vocalists, Sandee Moore and Johnny Wells, so impressed the audience that they were called back many times. Both had fine showmanship as well as good singing voices.

The loudest ovation ever to come out of Parker Hall came late in the program when the drummer finally broke loose. The deafening applause matched the greatness of his playing.

## ANNUAL AUTUMN TEA OF UNIVERSITY DAMES HELD AT DEAN'S HOME

Rolla chapter of university dames...

The Rolla Chapter of the University Dames held its annual Autumn Tea in the home of Dean and Mrs. Curtis L. Wilson, 506 West 11th Street, Sunday afternoon, October 16, between the hours of two and four o'clock with approximately 100 members and prospective members in attendance.

Mrs. Sue Wright greeted the guests at the door. Mrs. Louise Neeley provided each of the guests with a name plate on an autumn leaf motif. Mrs. Wilson, Mrs. Joan Thye, Mrs. Har- oldine Hines, Mrs. Sue Brumley, Mrs. Sue Brumley, Mrs. Ruth Bohres, Mrs. Janet Jones and Mrs. Mary Williams were in the receiving line. Loafers included Mrs. Jane Holden, Mrs. Norma Miller, Mrs. Betz Hygh, Mrs. Sadie Mueller and Mrs. Phyllis Macalady.

The Autumn theme was carried out the decoration through out the home. Mrs. Martha Wright, Chairman, and her committee members, Mrs. Vera Lee Minton and Mrs. Mary G. Williams, were in charge of the food and flower arrangements.

The tea table, covered with a lovely ecru lace cloth, had as its centerpiece a bouquet of yellow and orange chrysanthemums in crystal bowl, flanked by lighted yellow tapers in crystal candleholders. Mrs. Nola Her- ring and Mrs. Jane Ranklin poured. Food servers included Mrs. Betty Berkbigler, Mrs. Betty Baxter, Mrs. Inez Barker and Mrs. Nina Brannon. Mrs. R. M. Rankin and Mrs. O. R. Grave also assisted with the tea.

Entertainment for the afternoon was furnished by Mrs. Audrey Custeed, who presented several beautiful selections on the violin. She was accompanied by Mrs. Mary Williams at the piano.

## Stephens to Present Concert Sat., Oct. 29

Eighty-five members of the 125-voice Stephens College Concert Chorus will present a program Saturday, October 29 in Parker Hall, the first off-campus program of the chorus. As in the past, the girls will be escorted to dinner and the dance after the program by members of the various social organizations on the campus.

## St. Pat's Board Needs Ideas On New Method Of Selecting Queen

In the past years the selection of the St. Pat's Queen has been a matter of some controversy. For the past two years, prominent radio and television broadcasters in St. Louis have picked the queen from pictures submitted to them. It is the feeling of the students on the campus that this is a bad practice and the choosing of the Queen should be at MSM. In the attempt to correct this situation the St. Pat's Board is calling upon the student body for suggestions.

If you have an idea on how to select the Queen, write it down and give it to your St. Pat's representative or to Bob Kline at 707 State St. Your cooperation in this matter will be gratefully appreciated.

In the coming month of November, the St. Pat's Board will sponsor two events. The first will be the homecoming dance on Nov. 5 which will be after the football game. The other will be the benefit show "Pettie Girl" on Nov. 16. Tickets for both events are now on sale. Remember to support your St. Pat's Board.

## Pershing Rifles Plan Activities For Year; Largest Unit Ever!

Company K-7's newly formed drill team under the capable leadership of Cadet First Lieutenant Floyd Morris performed to the pleasure of all at the Parent's Day football game. The team, consisting of twenty basic military students, shows what can be done in just a few short weeks of all out practice.

The year 1955-56 promises to be the greatest in K-7's history including such proposed events as the forthcoming Military Ball, sponsored jointly by P. R. and S.A.M.E.; trips to the Fort Leonard Wood rifle and pistol ranges, the semi-annual pledge "outings"; and the spring trip to the Regimental Assembly. Also included in this year's firsts are to be a trick machine drill, a pistol drill team, and possibly a sabre drill for advanced course P. Rs. This year's pledge class is the largest in K-7's history at MSM.

Fall pledges include: Kenneth Adams, David Anderson, William Auberry, Don Barto- sch, Marcus Baunns, Anton Befa, Robert Bergesch, Eugene Bramon, Jim Bray, Fred Ballin, Ronald Bryant, Raymond Carney, Thomas Cassidy, Andrew Craig, James Chaney, George Criswell, James Crone, Dallas Crooks, David Cypher, Douglas Dallmer, Frank Erbschloe, Albert Fike, Harvey Finberg, John Grossheim, Roy Gustafson, William Hardin, James Hartman, Lee Headington, Stephen Hoiles, Edward Hornsey, Melvin Horton, James Howell, A. R. Kieffer, Richard Krom, James Latham, William Lynch, Kenneth Moss, Larry Murphy, Larry Nelson, Raymond Neider- shulte, Carl Norman, Jan Paynton, Martin Rogers, Ronald Sanders, Gerald Schaeffer, Alan Schmidt, Gary Sellers, Gaylon Smith, Gustav Tashima, Leo Tayloe, Allan Toigo, and Russell Wiethop.

### ATTENTION

A beginning Spanish class to be held one evening each week is soon to be started.

Anyone who is interested in obtaining a good basic command of the Spanish language including grammar, conversation, and reading is invited to contact Mrs. Douglas L. Daly at 862-R. Mrs. Daly is a graduate of Florida State University, with a Master's Degree in Spanish. She has taught at the University of Tennessee, Indiana University, and Berea College, Berea, Kentucky.

If interested in joining this class, please phone 862-R as soon as possible.

## THETA XI CAPTURES APO BLOOD TROPHY WITH PERFECT RECORD

The largest turnout of students for a blood drive was last Tuesday and Wednesday. Everyone must have realized the great need for blood in this county. Although about 200 students went down to give blood, approximately 140 actually donated since many were rejected because of colds or recent illness.

The winner of the Alpha Phi Omega sponsored contest was Theta Xi Fraternity, with 100% of the fraternity going down to the Episcopal Church. Theta Kappa Phi was second with 87% of its members donating.

The other percentages were: Tau Kappa Epsilon 76%; Pi Kappa Alpha 22%; Triangle 16%; Dormitory 15%; and Sigma Nu 10%. All others were below 10%.

According to Gene Hanss, President of Alpha Phi Omega, the contest will be changed in the future. Instead of crediting a student for giving blood just for being there and attempting to donate, he must actually give a pint before his name will be accepted for participation in the contest.

Since only 219 pints of blood were donated over the two days, much credit for the success of this bloodmobile visit is placed on the students of the School of Mines and Metallurgy.

## VISITING PROFESSOR WILL SPEAK TONIGHT TO INT. FELLOWSHIP

The International Fellowship will have a meeting Friday night in the Mining building at 7:30. The speaker will be F. G. Bonorino who was born in Argentina and studied in Buenos Aires, Chicago, and Princeton.

Mr. Bonorino was a professor of Geology at the University of Buenos Aires and also head of Geological and Mining Survey in Argentina. He arrived in this country in February of '55 under a Guggenheim Fellowship.

The subject of his talk will be "Political Situations in Argentina". There will be a period for asking questions after his speech.

## AICHE Hears Lecture On Technical Sales By Mr. F. J. Rauscher

The regular meeting of the American Institute of Chemical Engineers was held Thursday, October 13. A large number of members were present for the meeting. Mr. F. J. Rauscher of Union Carbide and Carbon gave a very interesting lecture on technical sales work. In his lecture, he pointed out the key role that chemistry and chemical engineering play in the manufacture of almost every imaginable thing. Also, he explained how the technical salesman helps in the development of various industries and in the production of an industrial basis of innumerable articles. Mr. Rauscher's talk was concluded with a resume of qualities that the engineer must possess if he enters technical sales work.

The next meeting of A.I.C.E. will be Thursday, October 27. The program will include a lecture by the president of a small industry. The problems faced by an engineer in such an industry will be discussed. All students interested in chemical engineering are urged to become active in this organization which can mean much in the practical training and social development of the chemical engineer.

## Plans for Dormitories Outlined by Finch

### Independents Plan To Hold Pre-homecoming Dance at V. F. W. Hall

By Ronald Scott, Ralph McCormick

The Fall Outing will be held tomorrow, October 22. All those planning to attend meet at the dormitory at 4:00 sharp tomorrow. Anyone bringing a new full year member for the Independents to the dormitory tomorrow will receive a free ticket to the outing. Members of the Shamrock Club may obtain their tickets from Joe Louvar.

The pre-homecoming dance will be held Friday, November 4, at the V.F.W. Hall, from 8:00 to 12:00. Everyone—repeat—everyone on the campus is cordially invited to attend. There will be no admission charge, nor a charge of any kind for this dance. Refreshments and good music are the main attractions.

The new members from the Shamrock Club on the governing board are: Joe Louvar and Warren Lieberman.

The next regular meeting of the Independents will be Monday, November 7. Featured at the meeting will be the movie "The Outlaw" starring Jane Russell (plus added attractions).

And all you fellows with dates Friday, November 4 remember the All School Dance sponsored by the Independents.

CHOICE CAMPUS COMMENTS: From the Tech Club...

The newest feature of the Tech Club this week was the "Scharf Slick-Top". The newest thing in men's wear for the pats. The Tomahawking he received didn't phase his appetite, however, as he promptly downed five servings of ice cream. The Parent's Day Meal was enjoyed by all, and a big round of applause and a hearty thanks go to Mr. and Mrs. Miklos who did a fine job of preparing the meal. The Orange Warriors came through in fine style by romping over Sigma Pi last week. Keep up the good work. From the Engineers Club...

FOR SALE: One shotgun, to be used for weddings and the like. See Bob Rickey for the chance of a lifetime—a sterling silver plated, 44 gauge, three barrel, over, under and around shot gun; only 98c, plus Federal tax. From the dorm... the dorm should have a good entry in the cross-country race to be held between halves of the homecoming game November 5, judging from all the running up and down the halls that goes on... the only trouble is, the ones that run up and down the hall aren't entering the race.

## Southwest Missouri State College

601 West 11th Street  
Rolla, Missouri  
October 14, 1955

The Student Body  
Southwest Missouri State College  
Springfield, Missouri  
Attn: Bill Williams  
Student Body President  
Gentlemen:

The weekend of October 8th was indeed a many-pleasured one for the students of Missouri School of Mines. The reception and treatment accorded the Miners by the students of Southwest Missouri State College will long be remembered as the most generous and hospitable we have had in some time.

The sportsmanlike conduct shown by the football team, as well as the co-operation of your ROTC band with the ROTC band of the School of Mines served to illustrate the fact that the "Powder Keg" is attaining its purpose in promoting rivalry, eliminating vandalism at the same time.

On behalf of the students of the Missouri School of Mines, we wish to thank Coach Stratton, Bill Williams, Leon Ward, and all those who participated in any way in a memorable evening for the Miners.

Yours truly,  
Dave Stoltz  
Student Council  
Mo. School of Mines

## THE MISSOURI MINER

THE MISSOURI MINER is the official publication of the students of the Missouri School of Mines and Metallurgy. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945 at the Post Office at Rolla, Mo. under the Act of March 3, 1879.

Subscription Price \$1.00 per Semester. (Featuring Activities of Students and Faculty of M.S.M.)

## Next Week's Interviews

**Monday, October 24, 1955**  
Company: Tennessee Gas Transmission Company, Houston, Texas.  
Interested In: January and June graduates in Geology and Petroleum Option and Geology Majors.  
Company: The California Company, New Orleans, Louisiana.  
Interested In: January and June graduates in Petroleum and Civil Engineering.  
**Tuesday, October 25, 1955**  
Company: Carter Carburetor Corporation, St. Louis, Missouri.  
Interested In: January and June graduates in Metallurgical, Mechanical, Electrical, and Chemical Engineering and Chemistry Option. Manufacturing and development work on automotive carburetors and fuel pumps.  
Company: Sealright Company, Inc., Kansas City, Kansas.  
Interested In: January graduates in Mechanical Engineering, Engineering and development. Food container manufacturing.  
Company: Commercial Solvents Corporation, Terre Haute, Indiana.  
Interested In: January and June graduates in Mechanical, Chemical Engineering, Chemistry Majors and Chemistry Option.  
Company: Continental Can Company, Inc., New York, New York.  
Interested In: January and June graduates in Metallurgical

**Wednesday, October 26, 1955**  
Company: Phillips Petroleum Company, Bartlesville, Oklahoma.  
Interested In: January and June graduates in Mining, Metallurgical, Civil, Mechanical, Electrical, and Chemical Engineering and Physics.  
**Thursday, October 27, 1955**  
Company: Monsanto Chemical Company, Inorganic Chemicals Division, St. Louis, Missouri.  
Interested In: B. S., M. S. and Ph. D. Degrees in Mining (Mining Option), Civil, Mechanical, Electrical and Chemical Engineering and Science (Chemistry Major) — January and June Graduates.  
Company: Shell Oil Company, St. Louis, Missouri.  
Interested In: January and June graduates in Chemical, Mechanical, Electrical, Metallurgical, Civil and Mining Engineering and Physics.  
Manufacturing Depart - Chemical Engineers and Chemists for Refinery Operations. Mechanical, Electrical and Metallurgical Engineers for Refinery Construction and Maintenance, Design, Power Plants and Engine Research.  
Exploration & Research Department - Mechanical and Physicists for exploration work.  
Interviews also on Friday.

DOWN BEAT  
STAR TIME

Jazz Briefs: Pianist Bud Powell is back on the jazz scene again after several months rest. He recently concluded a successful engagement at New York's Birdland. Incidentally, Bud's young brother, Richie Powell, also plays piano and can be heard with the Max Roach-Clifford Brown quintet.

A touring package to be billed as the Stan Kenton Jazz Showcase will begin a tour of California colleges and junior colleges. Headliners will be Shelly Manne, Bud Shank, Milt Bernhart, Conte Candoli, and Russ Freeman. Kenton himself will not appear with the group.

In a recent down beat article writer Nat Hentoff complained that jazz coverage by the large-circulation home magazines often has been fallacious. In particular, he pointed out the serious errors of emphasis in the Time cover story on Dave Brubeck in which Charlie "Bird" Parker was totally ignored in the historical section of the piece, and Life's jazz photos which viewed the leading jazzmen as eerie creatures in a side-show instead of human beings.

Trumpeter Art Farmer and writer-reedman Gigi Gryce have organized what they hope will be a permanent jazz unit. Members include Art's twin brother, Addison Farmer, on bass and Freddie Redd on piano.

First rate singing can be heard on the Decca LP from Pete Kelly's Blues (DL 8166) by Ella Fitzgerald and Peggy Lee. Peggy's "Bye Bye Blackbird" is the most haunting bit of vocalizing in months.

Lester Young will be filling in for tenor-saxist Stan Getz in the current Jazz at the Philharmonic troupe. Getz contracted pneumonia while touring Europe and is recovering slowly in a Swedish hospital.

Down Beat's Five Star Discs: Ruby Braff-Ellis Larkin, "2 Part Inventions in Jazz" (Vanguard LP's VRS-8019, 801-20) Miles Davis (Prestige 12" LP 7007)

## A Chinese Poem

Nice night in June  
Star shine  
Big moon  
In park on bench  
With girl in clinch  
Me say me love  
She coo like dove  
Me smart me fast  
Never let chance pass  
Get hitched she say  
Me say O K  
Wedding bells (ring ring)  
Honeymoon everything

Married life  
Happy man  
Happy wife

Another night in June  
Star shine big moon  
Ain't happy no more  
Carry baby walk floor  
Wife mad

She fuss  
Me fuss  
Life one big spat  
Nagging wife  
Bawling brat  
Me realize  
At last  
Me too  
Damn fast

NOTICE: Opportunity  
for technical graduates with Goodyear

Representatives of The Goodyear Tire & Rubber Company will be here on the date shown below to interview Seniors who will receive B.S. or advanced degrees in the following fields of technical study:

CHEMICAL  
ENGINEERINGMECHANICAL  
ENGINEERINGELECTRICAL  
ENGINEERINGINDUSTRIAL  
ENGINEERINGCIVIL  
ENGINEERING

CHEMISTRY

There's a career for YOU at Goodyear  
in any of the following fields:

- PLANT ENGINEERING
- PROCESS DEVELOPMENT
- FACTORY MANAGEMENT
- MACHINE DESIGN
- RESEARCH
- TECHNICAL SALES
- PRODUCTION DEVELOPMENT

Contact your student placement  
office now — plan now to have a  
personal interview!

Goodyear representative will be here on  
**NOVEMBER 3**

## THE GOODYEAR TIRE &amp; RUBBER COMPANY

What young people are doing at General Electric

Young engineer  
pioneers in design  
and sales of new  
tiny transistors

The germanium transistor—some smaller than the eraser end of a pencil and able to operate on a few thousandths of a watt—is probably one of the most promising developments in the electronics field today. It opens the way to new midget radios, TV sets flat enough to hang on a wall and many other exciting possibilities.

One of the men who helped design and perfect these tiny transistors—and the man who is now head of sales for all General Electric germanium products—is James H. Sweeney, Manager—Marketing, Semiconductor Products Department.

## Sweeney's Work Interesting, Vital

As early as 1948, Sweeney was head of a group that studied the design and possible uses of germanium products. He gained national recognition for his work in developing and introducing these products to other industries, and when a new Semiconductor Products Department was formed in 1953, Sweeney was a natural choice for the job of marketing these products.

## 25,000 College Graduates at General Electric

When Sweeney came to General Electric in 1941, he worked in many different departments until he finally found the work he wanted to do. Like Sweeney, each of the 25,000 college-graduate employees is given the chance to grow, to find the work he does best, and to realize his full potential. For General Electric has long believed this: When fresh young minds are given the freedom to make progress, everybody benefits—the individual, the company, the country.

JAMES H. SWEENEY joined G.E. in 1941 after graduating with a B.S. degree in E.E. from the University of Pennsylvania. During World War II he served four years with the Army.

Progress Is Our Most Important Product

**GENERAL ELECTRIC**

# PROSPECTIN' the Conference

By Don Binz

The Cape Girardeau Indians made believers out of all of the conference members last week when they again scored a victory, keeping their unbeaten record intact. Although the going was rough, the Indians came from behind in the last quarter to beat the Missouri School of Mines, 9-6. Thus the high-riding Miners were dropped in the standings and now hold a record of three wins and two losses.

The Miners and the Indians battled to a scoreless half with an exceptionally good defense shown. In the third quarter, Don Roth, of the Miners, snagged a pass tossed by Roger Feaster and crossed the goal line for six points. The thrilling play covered 60 yards and it looked as if the School of Mines were on their way. In the fourth quarter, however, Cape scored a safety and a T. D. for nine points. The Miners scored another T. D. in the fourth quarter, but it was nullified because of an illegal receiver downfield.

Warrensburg kept up the pace with Cape Girardeau, having an unbeaten conference record. Both teams have a conference record of two wins and no losses

for a 1,000 per centage. Warrensburg's hapless competition was usually strong Springfield Bears. The Bears have now suffered two losses in the conference, losing their first game to Rolla. Norman Brooks, of Warrensburg, accounted for all of the points in the game. He ran for 70 yards and 20 yards for two touchdowns and the winning margin. The final score stood at 13-0 in favor of the Mules.

The conference champs of last year, Kirksville, who seem to be miserably under-manned this season, are now in the cellar in the conference standings after again losing over the week-end. Maryville, the winner of that contest, now sports a 1-1 record, which is good enough to tie for third place. Neither team seemed to excel in offense as only one touchdown was scored between them. Maryville scored their only touchdown when they recovered a fumble on the 32-yard line. Kirksville managed a safety in the fourth quarter, letting the final score read, 6-2.

The leading Cape Girardeau Indians will be host to the Springfield Bears tomorrow. The Bears will be in quest of their first conference win while the Indians will try to keep their string of victories intact.

Other conference games will pit the Kirksville Bulldogs against the Miners at Kirksville and the Warrensburg Mules against the Maryville Bearcats at Maryville.

"Oh, Baby, where's your heart?"  
"Straight down my neck, first turn to the left."

**CARP'S**

Special Discounts  
Allowed to Dormitories, on Linens, Blankets, etc.

Charlie Stickels asks:

**Does  
Du Pont hire  
graduates who  
are draft  
eligible?**

**JOHN OLIVER**, also a University of Michigan man, received his B.S. in Mech. Eng. in 1938. Right after graduation, he began working for Du Pont in the Engineering Section of its Belle, W. Va., plant. Following this came an assignment as Departmental Engineer in the Wilmington offices, and today John Oliver is again at Belle—this time as Assistant Plant Manager.

**WANT TO KNOW MORE** about working with Du Pont? Send for a free copy of "Chemical Engineers at Du Pont," a booklet that tells you about pioneering work being done in chemical engineering—in research, process development, production and sales. Write to E. I. du Pont de Nemours & Co. (Inc.), 2521 Nemours Building, Wilmington, Delaware.

BETTER THINGS FOR BETTER LIVING... THROUGH CHEMISTRY  
WATCH "DU PONT CAVALCADE THEATER" ON TV

John Oliver answers:

The answer to that is definitely "Yes!", Charlie. We've employed quite a number of college graduates with definite military commitments, sometimes knowing that they could work only a few weeks before reporting for active duty.

The reason is that Du Pont is primarily interested in men on a "long range" basis. The fact that they're temporarily unavailable—for a good reason like military service—isn't any bar to being considered for employment. After working only one day, an employee is guaranteed full re-employment rights—that's the law. But if a man works for Du Pont at least a full year before joining the service, he gets a bonus of two months' salary. If he's entitled to a vacation but doesn't have time to take it before leaving, Du Pont gives him equivalent pay instead.

Even if present employment is impossible, Charlie, we definitely recommend your talking with Du Pont's representatives—and those of other companies, too. The very least you'll gain will be valuable background and some contacts which may be of real benefit to you when you leave military service.

## STAR OF THE WEEK

Just like Johnnie Podres, that is the way little Roger Feaster was tossing the ball last Saturday before a packed house at Jackling Field. Cape won the game, but it certainly wasn't because of poor quarterbacking from Feaster. There is little

ROGER FEASTER

doubt that Roger is among the best runners in the conference. It has been his passing that has been the questionmark in everybody's mind ever since Bullman decided to make a quarterback out of him two years ago. Now there is no question in anybody's mind about anything. Feaster has shown all season long that he is smart enough to run a ball club on the field too. A real star of the week, little Roger Feaster.

## MEET THE TEAM

DALE ROCKWELL

The Rock as this bull of a back is commonly called has been showing some of the oldtimers some really great football. Another one of the Miners' younger prospects Dale has two more years left after this one. As our extra point kicker Dale has done very well for himself too. Just adding up all of these seemingly unrelated facts it would appear that the Mines have another find. That is just what coach Bullman thinks too.

Once there was a mean Army officer—he was rotten to the corps.

As the bra said to the hat "You go on a head, and I'll give these two a lift."

## Intramural Sports

by Dick Okenfuss

### FOOTBALL

Intramural football passed into the final stages last week. Four teams were left at the beginning of this week. Theta Kappa Phi, last year's champions, and Sigma Nu, the runner-up last year, were matched in a replay of last year in the finals of the winner's bracket. In the loser's bracket, the Engineers Club and Triangle battled it out for the winner's place in the loser's bracket, and a last chance at the championship.

In games last week, Theta Kappa Phi outlasted a determined Triangle team 14-9. This game ended with Triangle playing under protest over a decision that cost them a touchdown. Theta Kappa Phi also had two TD's called back on questionable decisions. Sigma Nu bulldozed their way to a 14-0 victory over Tau Kappa Epsilon in a game that saw some of the most rugged play this year.

All other games were played in the loser's bracket. Engineers Club blasted thru to the finals in the loser's bracket by winning three games last week. They defeated Sigma Phi Epsilon, Lambda Chi Alpha, and Tau Kappa Epsilon in that order. Lambda Chi Alpha defeated the Dormitory before bowing to the Engineers. Tech Club whipped the Shamrock Club and Sigma Pi before falling at the hands of Triangle. Sigma Pi had advanced by defeating Kappa Sigma.

### TABLE TENNIS

Beta Sigma Psi and Wesley Foundation took the winner's brackets of singles and doubles respectively last week. The finals in table tennis were played the middle of last week. However, that was after the paper went to press this week. The final standings will be in next week's issue.

Beta Sigma Psi advanced to the finals by defeating Shamrock Club and Pi Kappa Alpha. Pi Kappa Alpha advanced by defeating Tech Club before losing to Beta Sig. In the loser's bracket of singles, Wesley Foundation downed Dorm "A" and then lost to Tech Club.

# Miners Are Downed In Rugged Battle, 9 - 6

By Charles Reeves

The Missouri Miners fought a losing battle Saturday as they lost 9-6 to Southeast Mo. State Teachers before a huge Parent's Day crowd. The Miners while losing showed the parents a fine brand of football. The Miners' defense was, as in past game, excellent and their offense was clicking as they scored once and had one called back on a penalty. MSM's pass defense which was weak in earlier games was as perfect as is possible. Cape completed no passes but outgained the Miners 210 to 103 yards on the ground.

Cape kicked off and the first half was a slow defensive game as neither team could score. Cape made one real threat in the first quarter as they took the ball on their own twenty and pushed 70 yards to the Miner ten before being forced to give up the ball on downs. In the last few minutes of the second quarter the Miners took over on Cape's 45 and carried the ball to the twenty. An attempted field goal by Dale Rockwell was no good and the first half ended scoreless with Cape in possession on their 40.

The Miners kicked off to begin the second half and after forcing the Indians to punt took over on their own 20. Four plays later quarterback Roger Feaster hit End Don Roth with a pass for a touchdown. Six plays later after receiving the kickoff and being forced to punt Cape intercepted a pass on the Miner 26 and pushed the ball to the Miner one yard line.

Theta Kappa Phi defeated Sigma Phi Epsilon but then bowed to Sigma Nu. Sigma Nu had advanced by defeating Theta Xi.

In doubles Wesley Foundation advanced to the finals of the winner's bracket by defeating Triangle and Theta Kappa Phi. Theta Kappa Phi had downed Sigma Phi Epsilon before losing to Wesley. In the loser's bracket, Kappa Sigma beat Lambda Chi Alpha but then lost to Sigma Phi Epsilon who then played Theta Kappa Phi for the winner of the loser's bracket.

Basketball and Handball will begin November 7. Basketball is played in two round-robin leagues. The top two teams from each league then play a double elimination tournament for the championship. Handball is run in the same manner as table tennis. A double elimination tournament being held in both singles and doubles.

The Miner line, which seems to be making a habit of goal line stands, made the Parents Day crowd go crazy as they four times stopped the Indians and took over on downs. The Miners trying to punt out had their kick blocked and Cape got two points for a safety.

Cape's winning touchdown came about the middle of the last quarter after they recovered a fumble on the Miner 18. Two plays later they scored as halfback Jim Ellis skirted for the T.D. Their free point attempt was good and they had taken the lead 9-6.

M.S.M. fighting desperately to score took the kickoff and carried the ball to the Indians 13 yard line but a touchdown was lost and they lost the ball as they were charged with having an illegal receiver down field on the scoring play. The Miners again took possession in the last few seconds of the game and throwing desperation passes moved the ball deep in Cape territory. On the last play of the game with half the crowd on the field the Miners hopes died as their pass was batted down and the gun sounded.

The Miners, plagued all day by penalties, out-gained Cape in total yardage as they gained 249 yards. Val Gribble with 84 yards was the top ground gainer. Don Roth with his long touchdown pass had 71.

The Miners are now tied for third in the conference with Maryville, both with 1-1 records. Cape and Warrensburg are on top with 2-0.

Old lady (to child in street): "I wouldn't cry like that, my little man."  
Child: "Cry as you damn well please; this is my way."

How about the two red corpuscles who loved in vein?

## Fraternity News

### THETA KAPPA PHI

The old "Cow House" is in a state of suspended animation this week awaiting the arrival of the dates for the annual Pledge Dance. From all advanced notices or lack of them, there will be plenty of girls around this weekend at the Theta Kaps. There is even a nasty rumor going around that Brother Gavan will have a date; however, this is purely hearsay. Anyway, I still say, "You're all wrong, Gavan."

The TKP gridders had a rugged game last week, defeating Triangle 14-9. Bob Kilgo had a beautiful 100 yard run called back as was another TD by Mike Stearman.

Played Sigma Nu Monday night and lost by the score of 42-13.

More about that next week. The table tennis teams both lost last week. The singles team, Jim Gunther, finished tied for fifth, and the doubles team of LeBrun and Ross can do no worse than third.

A large number of parents visited the house this past weekend. At the Mothers' Club meeting held after dinner Saturday, Mrs. Konrad, the president, presented the chapter with a check to cover the expenses of the senior room. President Mike Stearman then presented the Mothers with a large cake commemorating the anniversary of the founding of the Mothers' Club last Parents Day.

Had a couple of good jam sessions this past weekend. Friday night after finishing cleaning the house, several of the guys got together around Mudd, Bruegging, and Kozony on the trumpets and piano, and really lived it up. Then Saturday night with several of the parents joining in, another session got under way. Everyone was honored (?) by a "sweet" serenade by the Third Floor Sextet. These guys should be on radio or T-V. At least then we could turn them off.

If any strange creatures were seen around the house very late at night this past week, don't be alarmed. Those bloodshot eyes didn't belong to burglars; it's only the sophomores finishing their Physics lab formal reports. Oh well, sleep is unimportant anyway.

### SIGMA NU

By Clark Smith

There was an air of festivity around the Snake House this Monday, understandably as we beat the invincible Theta Kaps by the score of 42-13. We believe it to be the best game we have played in quite some time, and though the opposition was running and hitting passes well, they just didn't do it at the right times.

Although it will be in the past tense when this article appears Friday, we are now anxiously awaiting the outcome of Wednesday's game, for we hope its completion will find us holder of the first place trophy.

Friday afternoon the front porch of the Sigma Nu house was covered with stove. It was a gift of the Mother's club, and we had almost despaired of getting it installed before Parent's Day, but it finally arrived. Our problem was hardly solved though, as the old one had to be removed, and the new one installed. Naturally, the gas company couldn't get out to hook it up either. It finally got done, although the progress was considerably impeded by the overabundance of engineers on the job.

Food for thought: You can lead a horse to water, but a pencil must be lead. (Ha?)

### PI KAPPA ALPHA

Parents Day provided another hectic weekend for the boys at Pi Kappa Alpha. Mothers, fathers, sisters, brothers, aunts and uncles were sitting and standing everywhere you looked.

One of the standard questions asked, on Saturday morning by most of the parents, to their aspiring engineer sons, was, "When are you taking us to Your department, to see Your professors?"

Jim (Bird dog) Pate must

have lost all sense of time, and thought it was still Dance weekend. Seems as though he walked up behind one of the mothers and started to growl. It's a good thing he didn't try to initiate her into his B. M. A. Club.

We really enjoyed meeting and re-meeting everyone's folks. At least, now I know who to blame for the large number of "party boys" in our house. If they would ever participate in one of our dance weeked parties, I think we would all be expelled from school, and our house would have to leave the national. Even with our fates hanging in the balance, we would like to have them all down for a party some weekend, and take our chances.

### LAMBDA CHI ALPHA

The men around the house are all tense and waiting for Saturday afternoon when we will drag out the old mugs and head for that spot in the hills to test our capacity for a certain "substance" again; another group of fine fellows. Of course theirs no doubt in our minds as to the outcome. Say, have a big orange George.

Well, the football is stored back in the closet for a while and though we didn't rank first we had one of the hardest fighting teams around. Our last game had a sour note to it as in the fourth quarter, with the score tied, Ol' Bern snagged a pass and ran it all the way, BUT it seems on the way down field he had to run through a few opponents and the ref assumed that one of them would get his flag so he blew his little old whistle. That slight mistake cost us the game. We played the underdog and in over time we failed to gain as much yardage as did our opponents. When the hearing on the protest was held we were told that a replay would, quote, "mess up the nice schedule". That's life!

It seems that one of our pledges dislikes the treatment that our house manager, Gruby Bill, has been dishing out and has been letting him know about it with picture post-cards with "crazy" poems on the back. Of course they're all signed, The Phantom Pledge, but Bill knows "who done it" don't you Bill. We're gonna miss that boy around here!

On the lighter side of life, (females of course) activities are quite normal with George and Freddy going to Lindenwood on alternate nights and week-ends. Oh, by the way, Fred, how's the family (no, I don't mean your folks)? And Geo, I heard SHE has to use the ball bat, not you. The only lover around the house in a slight situation is little Ol' Bimbo, seems as if she just don't love her little Ol' boy no more! West Plains, here I come!

### THETA XI

The Theta Xi men enjoyed a fine weekend with their parents and taking the liberty of speaking for the parents, I would say they had an equally fine time meeting all the fellows and other parents. Tea was served Saturday afternoon and I must admit such a tea has never before taken place in these "Hallowed Halls." It had all the earmarks of a royal affair except when the guys spoiled everything by going back for seconds and thirds.

Now to more serious thoughts, Roger, "The Loner," the kid from Albany, nearly lost his head the other night. Through no fault of his own, of course, the car he was riding in, in fact he was driving, seemed to swerve from the road and collide with a moving tree. Since the auto wasn't his own Roger cheerfully agreed to pay damages. This was a relief for the owner until he discovered "The Kid's" only equity was in canoe paddle, two pandas, a homely canary, and a gallery of pin-ups. Roger agreed to part with everything but the pin-ups.

The Theta Xi "bleeders," as we are fast becoming known, won the blood trophy. Every individual "bleeder" cheerfully, without reservation, parted with his precious fluid. Congratulations fellows.

### TRIANGLE

Parent's Day was a huge success here at Triangle. The house was packed with approximately 85 parents and visitors (girls, girls, girls) here. This was the first time on the campus for the majority of them, and I think they left with a fine impression of M.S.M.

Mrs. Grubb and Mrs. Dunham did a fine job in preparing the food for this huge crowd of 130 in all. Everyone agrees that the food was mighty fine. We really appreciate the work that they have done, for it is a very large job.

Well, the Rock House picked up another football victory over the Tech Club. It was a hard fought game all the way with outstanding performances by Dennis Hunnicutt who intercepted a pass and ran for the first T.D. Don Henson was also outstanding on pass defense. This was the first appearance of Bill Schwalb and Bob Pare in football and from their display of football knowledge, we expect them to be a great aid to the team in the coming games. Everyone has been playing a fine game of football and are really showing their spirit in these games. Lets keep it up boys!

Everyone here at the Rock House has been watching where he steps now, for we have a new dog. It's a very unusual boxer pup and will really be quite a dog in the near future. We already have scars to show how frisky this little "rough-neck" is. Be on the lookout for "Roxy" of Triangle on the campus, for it won't be long until she will start on her B.S. in all fields of engineering at M.S.M.

### TAU KAPPA EPSILON

On goes school and on goes the safari to Lindenwood headed by "Pancho" Wensel. Those muchachos from Mexico must really have what it takes. That so, Jack?

The weekend also brought around the return of frater Dick Merz, this time with a blushing bride. Dick was in pretty good shape considering that he was married for a whole week.

Parent's Day was a great success with dinner on Saturday afternoon at the Pine Room highlighted by a few words from frater Dean Wilson. Some parents in general seemed to have a terrific time following in the footsteps of their sons down to those quaint old bowling alleys we know so well. Of course, after the close football game we lost, I felt like bowling a few games myself.

The castle out in back, sometimes called the annex, seems to be coming along fine. Aside from a few finishing touches and a glass shower door that shrank the boys appear to be living pretty comfortably.

Monday night, as the story goes, the pledges made a strange maneuver. It seems that they were so happy and full of energy that they strolled down State street in double file (real military) and for some reason or other started singing "April

Showers" right in front of the Theta Xi house. Well, a lot of the boys over there didn't like the singing, or were sleeping, or something, cause they just threw water all over those poor pledges. 'Nuff said.

### SIGMA PHI EPSILON

By Jack Hunt

Last Monday Engineers Club edged us out by a score of 13-6. It was a hard, clean game and we wish the "Engineers" a lot of luck in their future games. Having lost two games we are now out of the running. We are now anticipating better luck in the swimming and basketball.

Another week is now underway after a quiet weekend. Three of our members were so disgusted riding in from St. Louis Sunday that they bought a case of "orange soda" and threw bottles at signs all the way to Rolla. (Not one sign came close to danger.)

Leroy (Scrooge) Beghtol's bank account has now grown so large that the Rolla bank had to ship half of it down to St. James. When the word got around Rolla, old Scrooge was swamped with phone-calls from the town girls wanting some. Beghtol is convinced that it is strictly his charms and not his fortune they are after.

One of our esteemed actives, Possum P. Custer committed suicide last week when he heard that several new oil locations were found and that they were recruiting Chemical engineers to change the drills and pump mud into the well. Charlie Edwards is heading the operation.

Bob Dietrichs recently married a Zulu Indian and is doing missionary work among the Mau Maus.

Our pledge dance is going to take place this Saturday night and all pledges are making the last minute arrangements. We are sure it will be a big success.

### KAPPA SIGMA

Thursday and Friday were very busy days for the pledges, with Parent's Day in the offing, the house was thoroughly cleaned. They even cleaned both sides of the windows. Just ask Conroy. When the sun rose Saturday morning, the floor gleamed, the glass sparkled, and the kitchen gave off aromas of hot turkey with dressing. Those turkeys fed 120 parents and boys. A very successful Parent's Day passed into the records.

Along about Thursday, some nasty agents (we call them Mike Foxx and his gang) absconded with two of the bunks. These particular nasty men left an even nastier note, recommending that the bunks be evacuated from the premises. They were. There is nothing more discouraging than to report to Sack Lab 101 and find your sack has disappeared.

The past week was very unsuccessful as far as sports are concerned. We shall leave the statement as it stands written.

As a matter of fact, this article shall stand as written. Dig that diction would you? Should have been a lawyer.

### C.S.C. ANNOUNCES EXAMS FOR HIGHWAY ENGINEER TRAINEE POSITIONS

The United States Civil Service Commission has announced an examination for Highway Engineer Trainee positions paying \$3,415 and \$4,345 a year, in the Bureau of Public Roads located throughout the United States.

To qualify, applicants must have completed their third or fourth year of a professional engineering curriculum in civil engineering (or expect to complete such study by September 30, 1956), or they must have had at least 4 years of progressive experience in civil engineering. A written test will be given.

Further information and application forms may be obtained at many post offices throughout the country, or from the U. S. Civil Service Commission, Washington 25, D. C. Applications must be filed with the Board of U. S. Civil Service Examiners, Bureau of Public Roads, Department of Commerce, Washington 25, D. C. They must be received, or postmarked, not later than January 24, 1956.

Earnest swain: "I've loved you more than you'll ever know." Indignant Coed: "Well, next time, let me mix the drinks."

Scotchman: "Hurrah for Scotland!" Irishman: "Hurrah Hell!" Scotchman: "That's right, every man for his own country."

The chemical engineer in an industrial laboratory has an unparalleled opportunity for expressing his individual interests and ability. The challenge of keeping ahead of an ever-changing technology is a difficult one to meet. The illustration shows the initial stages of a project on thermal diffusion of liquids.

### PICTURE OF A GM ENGINEER!

THAT's right—he's a chemical engineer, and we show his picture in order to make an important point.

Here's what we're getting at—General Motors seeks qualified young men trained in many different branches of engineering.

About four out of ten engineers employed by GM are mechanical engineers—the rest, six out of ten, have backgrounds in other fields.

So please don't count yourself out of the running if you're a chemical engineer, electrical engineer, metallurgical engineer or the like. There's plenty of opportunity for you in an organization like ours that manufactures dozens of products, including not only automobiles and trucks, but also Diesel locomotives, Turbo-Jet airplane engines, radio equipment, storage batteries, fractional horsepower electric motors, even ice trays.

GM's 34 American manufacturing divisions are operating 119 plants in 64 U.S. cities!

You can find out all about these GM divisions—their locations, training programs, opportunities for advancement—in a valuable book entitled, "Job Opportunities in General Motors." Ask for it in your college library or placement office.

Why not arrange an interview with our representative the next time he visits your campus?

#### GM Positions Now Available in These Fields:

CHEMICAL ENGINEERING  
ELECTRICAL ENGINEERING  
AERONAUTICAL ENGINEERING  
MECHANICAL ENGINEERING  
METALLURGICAL ENGINEERING  
INDUSTRIAL ENGINEERING
